Namibian birds: species listing per Quarter Degree Square

Source: Bird Atlas of Namibia, being an extract of the Southern African Bird Atlas Project (SABAP1) data, that was published as [Harrison *et al.* \(1997\)](#). This page replaces the search facility on the now defunct old Bird Atlas web page. Note that only SABAP1 data is searched, not all bird data, and that taxonomy is as in Roberts 7, not SABAP1.
