General features

Frederick sends out the boy to see whether the ravens still fly.

Constantine XI Palaiologos, the last Byzantine Emperor.

King in the mountain stories involve legendary [heroes](#), often accompanied by armed retainers, sleeping in remote dwellings, including caves on high mountaintops, remote islands, or supernatural worlds. The hero is frequently a historical figure of some [military](#) consequence in the history of the nation where the [mountain](#) is located.

The stories gathered by the [Brothers Grimm](#) concerning [Frederick Barbarossa](#) and [Charlemagne](#) are typical of the stories told, and have been influential on many told variants and subsequent adaptations. The presence of the hero is unsuspected, until some [herdsman](#) wanders into the cave, typically looking for a lost animal, and sees the hero. The stories almost always mention the detail that the hero has grown a long beard, indicative of the long time he has slept beneath the mountain.

In the Brothers Grimm version, the hero speaks with the herdsman. Their conversation typically involves the hero asking, "Do the [eagles](#) (or [ravens](#)) still circle the mountaintop?" The herdsman, or a mysterious voice, replies, "Yes, they still circle the mountaintop." "Then begone! My time has not yet come."

The herdsman is usually [supernaturally](#) harmed by the experience: he ages rapidly, he emerges with his [hair turned white](#), and often he dies after repeating the tale. The story goes on to say that the king sleeps in the mountain, awaiting a summons to arise with his knights and defend the nation in a time of deadly peril. The [omen](#) that presages his rising will be the [extinction](#) of the [birds](#) that trigger his awakening.^{[1][2]}

In Tolkien

- [J. R. R. Tolkien](#) uses the king in the mountain in various places in his legendarium: the form of the [Dead Men of Dunharrow](#), the armies and king of [Númenor](#) who are trapped by the [Valar](#) when Númenor is destroyed, and in the Second Prophecy of [Mandos](#) which states that the dead heroes [Túrin](#) and [Beren](#) would return to help to defeat [Morgoth](#) at the end of times. Although in the *Hobbit* the term 'King under the mountain' itself is used, it refers to a quite different context: the [Dwarven](#) king who resides at the [Lonely Mountain](#) of [Erebor](#). The King Under the Mountain was also by right King of [Durin's Folk](#).^[9]

In *The Hobbit*, the [dragon Smaug](#) was (ironically) said to be the only "king" on [Erebor](#). The true ruler was [Thorin Oakenshield](#).
